

6th September 2017

Dear Sirs,

Thank you for the support and application with our display products.

We hereby to inform you the continue supply on below standard parts.

1. Products affected by this notice

TX18D35 series and TX18D37 series. (MP started from 2010 ~)

2. Supply status update

Our Japanese TFT production lines undergone consolidation to improve efficiency and adopt updated technologies. Above products were affected by these changes.

To ensure continuity of the product supply for our customers, we had reserved some LCD raw materials to meet the worldwide demand till 2020 based on the latest demand forecast provided by the sales offices.

In viewing of the strong demand forecast from the market upon these products in next five years, we decided to develop the LCD replacement on the other TFT line to sustain the supply of these products before the buffer stock depleted.

3. Summary

The last time buy request presented on 14th June 2017 decided to withdraw immediately according to above status. Sorry for the confusion caused by previous notice.

Please feel free to contact us for more information if there have any concern.

Yours sincerely,

Raymond Sun

Dept. Manager Of Sales & Marketing Dept.
