Dear Valued customers,

Mar 13th, 2020

Thank you for your supporting of the PID business so far.

Today, we regret to let you know Samsung Display has no way but to consider for the production of the Videowall products.

SDC has now reached a conclusion that we could not continue the support of the 46/55" Videowall products. We are sorry for this sudden notice, but would like to ask for your kind understanding of SDC's painful request.

In an effort to mitigate the impact to your on-going business using PID panels, however, SDC has prepared some LTB (Last Time Buy) volume.

SDC's sales person will get in touch with you to discuss the size of the last support volume .

Again, we feel so awful to deliver this unpleasant message to your attention.
