

## Product End of Life Notification (EOL)

DATA MODUL AG hereby formally issues an End of Life (EOL) Notification for the following product. Please be aware of the phase out schedule or replacement etc. as this notification is effective immediately.

Date: 02.08.2022

### 1. EOL applies to following product:

	Product Name	Part Number
	COM37H3N83ULC	12019079
	COM37H3P46ULC	12039046
	COM37H3P47UTC	12039047
Comment	Termination of production facility in Kochi/Japan see attachment	
Last Time Buy (dd.mm.yyyy)	16.12.2022	Deadline for order placement
Last Time Delivery (dd.mm.yyyy)	01.03.2025	Last delivery date. Product reaches end of life status.

### 2. Alternative replacement product

	Product Name	Part Number
	n.a.	n.a.
Availability (dd.mm.yyyy)	n.a.	

### 3. General Information

This EOL notification announces the end of production of the product herein. The process of determining the product discontinuation has been implemented in accordance to the DATA MODUL EOL procedure. The information about the end of life of a product is usually issued prior to the end of production in order to provide customers using this product the opportunity to take the necessary steps with regards to technical changes, certifications etc. and their purchasing plans. In some cases there is no transition time available due to the immediate change or end of life policy of our suppliers. Users of this discontinued product should review the EOL notification carefully to ensure that final purchases are made within the schedule as defined in section 1 of this document. There is also the rare possibility that the supplier may no longer be able to produce and deliver the full requested EOL quantity, due to unexpected events. As a consequence Data Modul will not be able to support the requested Last Time Buy quantities.

#### **Last Time Buy**

*This is the final date at which orders will be accepted for deliveries of the EOL product. After this date DATA MODUL AG stops all activities in purchasing component material for further production of the EOL product or purchasing the EOL product itself from other suppliers. Please note that this last time buy date might be some time prior to the official last time buy date of our suppliers, as we have to calculate further internal procedures in between.*

***Last Time Deliveries***

*After this specific date no more products will be produced and last deliveries will be shipped. Last time buy quantities will be shipped to the customer normally in one final shipment. Partial shipments of last time buy products will only be possible by separate individual contracts.*

***Alternative Replacement Product***

*Usually DATA MODUL AG will have a recommendation for an alternative replacement product that should retain the functionality of the original EOL product. This should enable the customer to easily replace the EOL product.*

*DATA MODUL AG does not guarantee that the recommended alternative replacement product will have exact the same layout, function and/or features of the EOL product. Furthermore DATA MODUL AG does not ensure that the software or hardware previously used with the EOL product will be compatible with the newly recommended product.*

**Note**

If you have any questions about the EOL procedure and/or the recommended alternative replacement product, contact your local DATA MODUL AG sales representative.

Best regards,  
Product Management

## Notification: Production Site Change and Product EOL

We sincerely thank you very much for your continuous support to our display business.

This document is to notify our product production systems restructuring as well as product discontinuity.

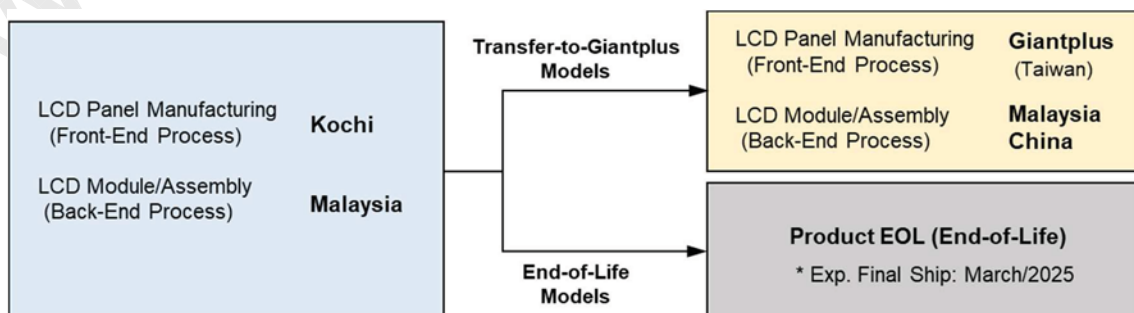

Toppan Kochi factory (Toppan Electronics Products Kochi) started TFT-LCD panel production (front-end process) in the year of 1994. Toppan determined to terminate the production of TFT-LCD panels at Kochi factory on March 2024, with the background that technical transfer to Giantplus Technology (Toppan's subsidiary in Taiwan) gets matured and an aging of manufacturing equipment in Kochi.

A manufacturing of TFT-LCD panels (front-end process) will be entirely transferred to Giantplus. Combining with LCD module and assembly process (back-end process) in Toppan's Malaysia factory and Giantplus' China factory, Toppan will continue the Small-to-Medium size TFT-LCD business as ever. A product consolidation program is supposed to be implemented along with the production site transfer; as a result of product consolidation, we would be required to announce a production discontinuity (End-of-Life, EOL) in current TFT-LCD products using panels manufactured in Kochi.

Kochi factory will continue to exist as a development center of new business creation.

We sincerely hope to have your kind understanding and support to our decisions.

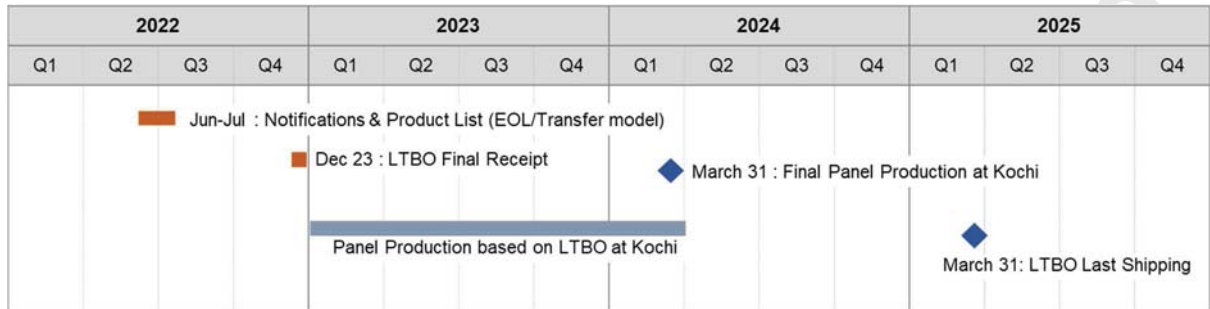

- Final TFT-LCD Panel Production at Kochi
  - March 31, 2024
- Product List of Transfer Model and EOL Model
  - The List of Transfer-to-Giantplus models and EOL models will be issued afterwards.

### 3. Request

- 3-1. We sincerely request your company to make a notification for the end customers regarding product site change and EOL plans.
- 3-2. Last-Time-By Order (LTBO) is required to be placed for all products, not only EOL products but also all Transfer-to-Giantplus products. The LTBO receipt is supposed to be closed on December 23, 2022.

### 4. Expected Timeline

#### 4-1. June/Middle to July/Middle, 2022

- Notifications and Last-Time-Buy-Order Request
- List of "Transfer-to Giantplus" models and "EOL" models to present

#### 4-2. December 23, 2022 Final receipt of Last-Time-Buy-Order (LTBO)

#### 4-3. March 31, 2024 Termination of TFT-LCD panel production (front-end process) in Kochi fab

#### 4-4. March 31, 2025 Final shipping of EOL models

Sincerely,

Shigeaki Fujiwara
