PCN NLT-PP-3079

January 30th, 2012

NLT Product Change Notice
PCN Tracking Number: NLT-PP-3079

To: Customer**1. Product Type #:**

NL6448BC33-54
 NL6448BC33-59
 NL6448BC33-59D

2. Description of change:

NLT Technologies will add for above listed LCD-Modules an additional production site in China in order to secure the production capacity and delivery to customers.

According to this change, some components will be changed as below.

Item	Description of the change
Production process	All production processes will be done at China production site. (Production of the TFT panel part, Module assembly and Product inspection)
Product specification	Anything of electrical specifications, optical specifications, outline dimensions, product reliability, UL approval and Chemical substances control like RoHS compliance will not be changed according to this change.
Materials	Some parts will be changed. Please refer to "3. Material change"
Information of country of origin on the label	Information of country of origin on the label will be Changed. Please refer to "5. Information of country of origin on the label"

3. Material change

Item	Description of the change
TFT panel part	TFT panel will be produced at China production site.
ICs	Timing controller will be changed and driver ICs will be changed.
Signal processing board	The signal processing board will be changed its shape, thickness, layer number and materials to fit to the new timing controller. However, product specification and fuse rating will not be changed.
Front metal chassis	Surface appearance of the metal chassis is slightly different from the current one because of difference of surface-finishing. No material change will be applied.
